# **WORK EXPERIENCE**

#### **Accenture**

### Technology Youth Apprentice

10/2022 - Present

One Manhattan West

#### Tasks

- Presented technology-based demos for 24+ clients and 33+ innovation technology showcases, presenting GenAI, immersive experiences, spacial computing, and robotics
- Analyzed, designed, coded, tested, and deployed various code and infrastructure in AWS, to showcase to 138k+ consumers at CES (Consumer Electronics Show)
- Over 120+ hours of various technology and business based training
- Proficiency in using version control systems, such as Git, for collaboration, tracking changes, and managing code repositories
- Learned the following coding languages: Python, JavaScript, HTML, React, Typescript
- Strong analytical and problem-solving skills for identifying and addressing issues in the application development process
- Usage of over 15+ virtual, mixed, and augmented reality headsets

#### Accenture

#### Infinadeck Technical Lead

06/2023 - Present

One Manhattan West

Omni-Directional Treadmill used for VR/MR/AR designed for state-of-the-art simulation and training in VR

- Acted as a point of contact for technical issues and challenges, worked with my team to identify solutions and overcome obstacles
- . Contributed to the development of critical features or modules, set an example for the team in terms of coding standards and best practices
- Collaborated with my team to develop effective testing strategies, ensuring that the software meets quality standards
- Identified areas for process improvement and implemented changes that enhance efficiency and quality. Stayed informed about emerging technologies and assess their relevance to the project or team
- Hosted 30+ demos, tours, and training sessions, for 120+ people, including clients and senior internal stakeholders

# **EDUCATION**

### **Chelsea Career and Technical Education**

09/2020 - 06/2024

4.0

#### Courses

- CISCO Networking
- **National Technical Honor** Society
- Internet Core Competency
- Computer Technology

## INTERESTS

**Electric Guitar** Additive Manufacturing

### CERTIFICATES

#### Internet Core Competency Certification (06/2020)

IC3 covers a broad range of fundamental computing knowledge and skills necessary for individuals to use computer technology effectively in various personal and professional settings.

#### IC3 Living Online Certification (06/2021)

Identifying network fundamentals, the benefits and risks of network computing. Identifying different types of electronic communication/collaboration

#### Hour of Code (12/2022)

Designed to demystify "code", to show that anybody can learn the basics, and to broaden participation in the field of computer science

#### "Best Use of Generative AI" and "Best Brain Hack" in Billboard Magazine's "Best of CES 2024" for MAIR Project (02/2024)

An AWS made project during my time at Accenture. Built LLM Models using Amazon SageMaker. Troubleshooted Lambda processes using AWS CloudWatch. Prompted and configured LLM Prompts, configured AWS Code, created DynamoDB Tables, fixed website prompts with Digital Human (DH) Site.

#### IT Fundementals Pro Certification (03/2024)

An entry-level certification which introduced me to essential IT concepts and terminology. It covers foundational knowledge in areas such as computer hardware, software, networking, security, and basic troubleshooting.

# SKILLS

Amazon Web Services (AWS) Python
Virtual/Mixed/Extended/Augmented Reality
Client Engagement Demoing/Presenting
Full Stack Development React Typescript
Generative Al Communication Adaptability
Technology Management Organization Social
Collaboration/Teamwork Creativity PowerPoint
Time Management Excel Problem Solving
Consumer Technology Git Figma Networking
